LANCASTER.

Dr. W. N. Bush has returned from the Stanford infirmary much improved. Messrs. J. M. Duncan and George Smith, Jr., have gone to Rock Castle Springs.

Several democrats have gone to Louisville and several republicans to Philadelphia, partly for the purpose of making nominations, but principally to abuse each other.

INTERIOR JOURNALS are so much in demand here that they are called for at the news stands. I heard a young man ask for a Courier Journal and an INTERIOR JOURNAL and when he failed to get the latter he left with a frown of dissatisfaction.

Mr. E. P. Moritz, is here surveying for the erection of water works. The people are delighted to see this. Our city only needs three things to be the most inviting city in the State: Water works, the extension of the Southern railroad, and, especially, more Christianity, the latter being needed more than both the first named.

The name of Hon. R. H. Tomlinson was mentioned late as a candidate for the democratic nomination for governor, but no telling what will happen. Garrard has furnished several governors and has plenty of timber left. If he should announce, his career in important places of public trust, is a guarantee that he would discharge his duties faithfully if he should be nominated and elected.

Commander Maj. L. M. Drye, of the G. A. R. encampment, has appointed a committee composed of Messrs. John Barr, A. L. Brown, M. Minton, D. R. Carr and William Herndon to "Memorialize Congress with a view to having a National Park established on the battle field of Perryville." During the encampment here in May, a communication was received from a large number of influential citizens of Perryville and vicinity asking the encampment to take action on this matter. The communication was referred to Maj. Drye, Judge Carr and Capt. Herndon, who reported a resolution favoring the movement, which was unanimously and enthusiastically adopted. In accordance with said resolution the above named committee was formed. On receipt of official notice, letters were written and communication opened with the citizens of Perryville for the organization of the committee, asking that the citizens of Perryville and vicinity organize a bureau of information and to assist in the work. The committee will go to work at once, getting up needed information and data, and it is expected that they will visit that famous battle field soon. They expect to have their memorial, accompanied by all the facts and information necessary ready to present to Congress at its session commencing in December next. Capt. Herndon put the matter on foot and it is believed that the park will be established.

Squire Myers has ditched 23 miles of turnpike with the steam plow, at \$15 per mile, and it is well done. The same work by hand would have cost over \$1,000.

A warrant has been issued for the arrest of Russell Holdman, charging him with an attempt to commit an assault on Mrs. Wells, near Flat Woods. He was arrested but the facts in the case are not known. Trial this week.

The announcement that the Louisville Commercial Club recommended that the merchants of that city assist in paying for the right-of-way for the Southern railroad through this county, is encouraging and it should induce our people to subscribe all they can for the much needed enterprise.

Sells & Gray's great show will exhibit here Wednesday, June 27. It has everything of a first class circus and animal show, being excellent in every performance. The press in many States has made favorable mention of it. The rough riders, the pick of the U. S. Navy, will be one of the attractive features.

There is a strong feeling here to turn the Philippines over to the colored people and send them there. This would be for the good of society and stop the heavy expense of maintaining the islands, which are no more ours than are the spots on the sun and we have less use for them. The truth is they are nothing but a dead fall, inviting trouble with foreign powers, and the war was only waged for humanity's sake and not for the purpose of acquiring territory.

MT. VERNON.

Sells & Gray's circus will show here on the 28th.

Your reporter attended the telephone meeting at Winchester last week. A majority of the strongest independent companies of the State were represented and arrangements were entered into for connecting all their exchanges by metallic circuits, thereby increasing the efficiency of the service 50 per cent. or more. Other important questions were acted upon, and altogether the independents have a bright outlook.

The telephone line building from Eubanks to this place, has reached Level Green and is in working order. The enterprise is being put through by Messrs. Wilder, Riddle, Drs. Price, Isaacs and others. Poles are being distributed between Level Green and this place.

There is a deal on foot between the owner of Pine Hill coal works and some Southern and Indiana parties whose names we have failed to learn. It is said a trade has been closed and papers are being drawn this week. It is claimed that it is the intention of the late purchasers to erect coke ovens and do an extensive business. This property has changed hands often within the past dozen years and each new purchaser has promised great improvements, but having failed to materialize, we will wait and see what the latest arrival will do before giving them an extended write-up.
